

ThinkCentre M90t Gen 5

Engineered for high-velocity productivity across industries, this ThinkCentre built on Intel® vPro® Enterprise delivers unparalleled performance and reliability with Intel® Core™ i9 processors. Whether tackling intricate design projects or editing high-definition videos, the integration of Intel® UHD 770 and optional Nvidia® GeForce RTX™ 4060 Graphics guarantees seamless handling of demanding tasks, fostering improved workflow efficiency and faster project turnaround times. Furthermore, designed to endure the challenges of today's dynamic work environments, it adheres to MIL-STD-810H standards, guaranteeing resilience against environmental factors and ensuring prolonged durability.

Empowering the modern workforce with a streamlined desktop experience

ThinkCentre M9 Series desktops offer powerful performance with efficient processors, ample memory, and SSD storage, making them ideal for modern professionals requiring reliable computing for multitasking, creative work, and collaboration.

Experience a substantial boost in CPU speed and responsiveness with Virtual Thermal Sensor (VTS) based performance enhancement and Energy Performance Optimizer (EPO), ensuring uninterrupted workflows. Moreover, when integrated into Intel® DTT software, they intelligently adjust energy performance preferences, battery life, and thermals based on workload recognition.

Unleash high-performance storage with the 2 x Gen 4 SSD and 2 x 3.5" HDD support that results in lightning-fast read and write speeds, swift boot times, and accelerated application loading. Furthermore, connectivity is elevated with the dual USB 3.2 Gen 2, USB 3.2 Gen 2 Type-C, dual DisplayPort and HDMI 2.1 TMDS ports that enable seamless peripheral connectivity, swift data transfer, efficient device charging or display mirroring.

The desktop's Smart Power On feature enhances convenience and efficiency by enabling remote startup which increases accessibility and productivity. It supports scheduled operations, energy-saving configurations, and proactive maintenance, ultimately optimizing workflow and resource utilization.

Built to reduce environmental footprint

Lenovo is making the industry's broadest portfolio of technology solutions more sustainable to help organizations reduce their environmental impact. As a global technology powerhouse, Lenovo is committed to achieving net-zero greenhouse gas emissions by 2050 with targets validated by SBTi.

Recycled or sustainable product materials

Lenovo embraces sustainability by assimilating recycled materials such as post-consumer recycled content (PCC) in its manufacturing processes. Incorporating these materials makes the manufacturing process energy efficient, leading to a decreased carbon footprint and contributing to a circular economy.

- 85% PCC ABS in chassis
- 95% PCC ABS in keyboard and mouse

Recycled shipping/packaging content

Lenovo is innovating to increase energy efficiency and the use of recycled content in our devices. By incorporating post-industrial recycled content and recycled ocean-bound plastic, our packaging provides exceptional protection to the device and significantly minimizes waste, while ensuring it undergoes rigorous testing to ensure low chemical emissions.

- 90% PIC in EPE cushion, 30% OBP in system bag, 30% OBP Thermal Shell, FSC Carton
- Certified with GreenGuard

Lenovo Premier Support Plus

Lenovo Premier Support Plus offers comprehensive assistance by freeing IT teams of break/fix responsibilities. Its AI-driven predictive issue detection anticipates problems ensuring uninterrupted productivity, while with 24x7 access to experts, remote fixes are seamless. Plus, Accidental Damage handles mishaps and Keep Your Drive ensures security.

Asset Recovery Service (ARS)

Lenovo's Asset Recovery Service (ARS) enables secure destruction of data, helps reduce e-waste, and offers a fair market value for your end-of-life IT assets. The service also supports equipment from any manufacturer including PCs & tablets, monitors, servers, phones, printers, copiers and networking equipment.

Lenovo CO2 Offset Services

Lenovo's Co2 Offset Service makes offsetting carbon emissions simple and within the control of the customer. We offset the carbon emissions across the average lifecycle associated with each of our devices by providing the option at the point of purchase, supporting the United Nations, Gold Standard®, and Climate Action Reserve.

Lenovo Services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..
